

SEAMAN
OTTER RIVER

PAPER CO.
MASSACHUSETTS

The leading global supplier of lightweight papers & decorative packaging.

“Committed to our customers, our employees, and the environment.”

Our Environmental Policy

SEAMAN PAPER is dedicated to providing the highest quality tissue paper in a responsible “earth-friendly” manner. It is our continuing goal to keep paper out of America’s landfills.

- Utilizing ECF (elemental chlorine free) PULP, significantly reduces harmful by-products.
- On site WASTEWATER TREATMENT facility reduces solid waste by over 99%.
- WATER “RECYCLING” has reduced usage of fresh water by 22% since 2005, effectively SAVING MORE THAN 89,000,000 GALLONS OF WATER.
- Residual paper fibers from Wastewater Treatment Facility are transported to our 300 acre COMPOSTING facility before being converted into valuable TOPSOIL.
- Earth Friendly Water-Based and Soy Inks are utilized at our Printing Facility.

- Transitioned from an oil-based energy source to one fueled by wood chips made from RECYCLED pallets.
- Burning “scrap” pallets significantly reduces the impact on overflowing landfills.
- Use of this renewable fuel effectively reduces emission of GREENHOUSE GASES BY 85%.

- At least 61% POST-INDUSTRIAL FIBER in overall furnish.
- Equivalent to the recycling production from over 253,000 trees and the preservation of over 1,200,000 Cubic Feet of landfill space annually.
- SatinWrap® White and Solid Color Program includes 10% POST-CONSUMER FIBER starting in 2007.
- Seaman Paper Company Tissue is 100% RECYCLABLE
- Major Pulp and Secondary Fiber Suppliers are SFI-Certified.
